

Tektronix Expands Distribution Channel with Convergent Technologies **New Agreement with Convergent Technologies Encompasses Full Tektronix Product Portfolio, Giving Customers Broader Technical Support and More Solution Options**

Bangalore, India - December 19, 2012 - Tektronix, a world leading manufacturer of oscilloscopes, today announced a new agreement with Convergent Technologies that will enable them to offer customers the full portfolio of Tektronix products including high performance oscilloscopes, signal generators, real-time spectrum analyzers, logic analyzers, Keithley precision test instruments and the MDO4000 Series - the world's first and only mixed domain oscilloscope.

The expanded relationship will help provide more resources in India offering customers increased support and advice when choosing a test solution for their application needs.

In announcing plans to increase channel partner support, Kapil Sood, general manager, Tektronix India said, "Our expanded relationship with Convergent Technologies, will enable customers to experience better technical and application guidance for their test and measurement product needs."

"With expanded access to the Tektronix portfolio, we can be sure of meeting the most sophisticated testing demands," said Nitin S. Shetty, Convergent Technologies.

Increased Coverage for Tektronix

Under the new agreement, Convergent Technologies will work jointly with Tektronix to configure test solutions and consult on a wider range of application test requirements with customers. The new distribution partner agreement with Convergent Technologies is effective immediately.
