

Tektronix Opens Malaysia Service Lab

Increased Asian Presence Gives Local and Multi-National Companies Easier Access to Critical Instrument Calibration Services

BEAVERTON, Ore., September 24, 2012 -- Tektronix (service-solutions.tektronix.com), the industry's leading multi-vendor service (MVS) provider of instrument calibration and repair, today announced the opening of a new service lab in Penang, Malaysia. The Penang lab is part of Tektronix' broader worldwide test and measurement service expansion -- offering more than 100 points of service worldwide. The expansion into Malaysia provides local and multi-national calibration and repair customers with easier access to Tektronix capabilities and high-quality service.

"We think it is important we remain close to our customers geographically. Opening the Penang lab enhances our ability to provide high quality, multi-vendor service to customers throughout Asia. Having a presence in Malaysia, along with our calibration capabilities in Singapore, Japan, China, India, and Taiwan increases the company's Asian and global reach," said Bruce Bolliger, Vice President for Tektronix Service in Asia.

The new lab will be based at:
Suntech @ Penang Cybercity
Unit 1-15-12
Lintang Mayang Pasir 3
11950 Bayan Baru, Penang Malaysia
Main Line : 60-4-643 9679
Fax : 60-4-643 3794

In addition to servicing Tektronix and Keithley instruments, the new lab in Penang provides repair and calibration services for multiple test and measurement equipment vendors.

"Tektronix has more repair and calibration labs globally than any other test and measurement supplier," said Bernie Duffy, Vice President and General Manager of Service at Tektronix. "It is our intention to continue to rapidly expand our coverage, as we know that customers prefer local providers. The Malaysia expansion is the latest following recent announcements in China, Japan, Mexico, France, Germany, and India and is yet another outcome of our multi-million dollar investment in service operations worldwide."
