

## **Tektronix Achieves Two-Millionth Instrument Calibration**

### **Remarkable 16 Month Milestone Demonstrates the Quality and Comprehensiveness of Multi-Vendor Service Capabilities**

BEAVERTON, Ore. February 21, 2012 - Tektronix (service-solutions.tektronix.com), the industry's leading multi-vendor service (MVS) provider of instrument calibration, repair and related services, has reached its two-millionth calibration. The company achieved this milestone within 16 months of launching its MVS capabilities. With the ability to manage 100% of calibration services, Tektronix' customers have direct access to the quality they expect from the industry leader in test, measurement and monitoring solutions.

The 2 millionth calibration was performed at Portland, Ore. based Columbia Helicopters, Inc. Kimberly Churchill, ASQ, CMI, CQT, from the company's Quality Department was enthusiastic about her company's involvement in this achievement. "The quality of services provided by Tektronix has been outstanding. They have taken the time to learn our tools and company mission with quick turnaround times and nearly instant responses to our calibration needs. Their technicians have a tremendous amount of experience in a wide variety of tools and specialties and their online management tool is quick and easy to use. I look forward to our continued partnership"

"We are delighted to have hit this milestone in such a short time," said David Carew-Jones, vice president of marketing for Tektronix. "Our clientele is increasing at an exponential rate, and I anticipate we will see our three-millionth calibration rapidly approaching. We continue to expand the breadth and depth of capability on a global scale and our goal is to become not just a calibration provider, but a complete asset management partner for our customers. This 2mm calibration milestone is validation that we are delivering what our customers need."

Tektronix offers the most comprehensive suite of instrument calibration services in the business. As the leading calibration provider to the life science, aerospace and defense industries, the company combines unmatched quality with global reach. By integrating innovative systems like the CalWeb® asset management tool with the stability backed by Tektronix, clients receive high value business solutions that improve operational efficiency and create competitive advantage.
