

Tektronix Service Solutions Opens New Facility in Ontario+ Canada Facility Delivers New Single-Source Service Options for Canadian Customers

BEAVERTON, Ore., December 1, 2010 – Tektronix Service Solutions, the world’s leading single-source provider of instrument calibration, repair and related services, today announced the expansion of services into Canada with a new service lab in Mississauga, Ontario. The expansion provides enhanced service options and added flexibility for companies that rely on their test, measurement, and control instrumentation for day to day operations.

The fully-accredited service lab offers unmatched quality to help customers, ranging from local companies to global enterprises, meet their instrument maintenance and asset management requirements for more than 130,000 instruments from 9,000-plus manufacturers.

“Our expansion is driven by customer demand, particularly in Ontario, for our test and measurement services,” said Kathy Boyd, Tektronix Service Solutions’ president, North America. “This facility places Tektronix Service Solutions in a strong position to meet the demand and continue to enhance our value proposition through increased capabilities, quicker turnaround time and cost-effective local service for our customers. We’re excited about this expanded Canadian presence as we deliver on our mission to expand our global footprint to customers worldwide.”

The center provides customers access to Tektronix Service Solutions’ unparalleled capabilities, including:

Single-source provider - Tektronix Service Solutions can manage a customer’s entire test, measurement and control instrumentation program. Direct service capabilities extend to more than 130,000 products from 9,000-plus manufacturers reducing purchase orders and lowering overall costs for customers.

Global network/Local service - An extensive global network ensures local service, technical expertise, scalability and flexible service packages backed by 80 worldwide locations and more than 1,000 experienced associates providing customers a significant reduction in equipment downtime.

Flexible solutions - Tektronix Service Solutions offers customers the ability to custom-tailor their service requirements by offering multiple package options, competitive pricing and consulting services designed to provide the best business value for a customer’s unique needs

Tektronix Service Solutions new facility is located at 400 Britannia Road East, Unit 2, Mississauga, ON L4Z 1X9.
