

Nanjing University Selects Tektronix to Equip New Electronics Experimental Center

University Purchases Nearly 300 Tektronix Oscilloscopes

Beaverton, OR, June 29, 2009 – Tektronix, Inc., a leading worldwide provider of test, measurement and monitoring instrumentation, announced that Nanjing University, one of China’s top universities, has purchased nearly 300 units of TDS1000B and TDS2000B Series oscilloscopes.

Nanjing University is one of the elite universities included in China’s Education Project 211 and Project 985 that aims to cultivate top talent for technology innovation. The Experimental Centre of the Department of Electronics Science and Engineering at Nanjing University gives students access to industry leading instruments to develop the practical skills needed for innovative and advanced electronic design projects.

“Oscilloscopes are the most frequently-used instruments in our center,” said Baoping Zhang, professor and director of the Electronics Experimental Center at Nanjing University. “The high quality, durability and user-friendly interface of Tektronix oscilloscopes are ideally suited to our needs. When it comes to oscilloscopes, Tektronix is always the first brand that comes to mind.”

“Collaboration with Chinese universities is part of Tektronix’ long-term China strategy,” said James Alderton, Tektronix Asia Pacific marketing director. “We are very proud that the TDS1000B oscilloscope will be deployed in this center to teach and develop China’s future engineering talent.”

About Tektronix

Tektronix is a leading supplier of test, measurement, and monitoring products, solutions and services for the communications, computer, and semiconductor industries - as well as military/aerospace, consumer electronics, education and a broad range of other industries worldwide. With 60 years of experience, Tektronix enables its customers to design, build, deploy, and manage next-generation global communications networks, computing and advanced technologies. Headquartered in Beaverton, Oregon, Tektronix has operations in 19 countries worldwide. Tektronix’ Web address is www.tektronix.com.
